Motif Gradient Compression Socks are designed to expand with you during pregnancy and prevent swelling, circulation issues, and varicose veins. They can reduce discomfort in your feet and ankles, support your cardiovascular system by promoting good blood flow, and help you stay more comfortable when you're on your feet for long periods of time. Made for pregnancy 3-9 months.

### FEATURES & BENEFITS

- Delivers a controlled amount of pressure to promote better blood flow.
- 20-30mm Hg
- Helps prevent swelling, discomfort, and varicose veins.
- Ultra-stretchy yarn makes socks easy to put on.
- Soft, non-restrictive comfort band.
- Made in the USA.

## Pregnancy Support Band

SKU: AAA0016-01 (XS), -02 (S), -03 (M), -04 (L), -05 (XL)

Motif Pregnancy Support Bands were designed by medical professionals for women who want to stay active, comfortable, and supported during pregnancy. This FDA-listed medical device works by relieving pregnancy-related pressure from the abdomen, hips, and lower back to reinforce the body's core. Built for a discreet fit and made with breathable fabric, the band's simple redistribution of weight provides incredible relief and comfort during everyday activities. Recommended for use from three to nine months during pregnancy.

### FEATURES & BENEFITS

- Relieves pressure on the abdomen, lower back, hips, pelvis.
- Soothes pregnancy-related pain and discomfort.
- Reduces sciatica.
- Improves posture.
- The band easily adjusts to grow with pregnancy.
- Discreetly wear under clothing or comfortably over clothing.
- Soft, breathable fabric.
- Machine washable.
- 65% nylon, 35% polyester construction.

# Postpartum Recovery Support Garments

## Natural Birth

SKU: AAA0010-01 (XS), -02 (S), -03 (M), -04 (L), -05 (XL), -06 (XXL)

Motif Postpartum Recovery Support Garments were designed by medical professionals for new moms to help recovery after birth by providing structure to stabilize the stomach, back, and hips. The extra support provided from this medical garment works to improve posture while tightening and toning the areas most affected by pregnancy.

Made with lightweight and breathable fabric, Motif Compression Garments hide discreetly under clothing for a seamless, comfortable fit.

### FEATURES & BENEFITS

- FDA-listed medical device.
- Speeds up postpartum recovery time.
- Delivers gentle compression to reduce swelling (edema).
- Stabilizes the abdomen with structured support panels.
- Relieves conditions like pelvic girdle pain.
- Supports lower back and hips for improved posture.
- Tightens and tones belly, hips, waist, pelvis, and lower back.
- Split crotch design for convenient trips to the restroom.
- Contains silicone leg grippers to prevent the garment from riding up.
- 76% nylon, 24% spandex.

## C-Section & Natural Birth

SKU: AAA0010-01 (XS), -02 (S), -03 (M), -04 (L), -05 (XL), -06 (XXL)

Motif Postpartum Recovery Support Garments were designed by medical professionals for new moms to help recovery after a C-Section birth by providing structure to stabilize the stomach, back, and hips. The garment also features a side zipper designed for easy wear after a C-Section and aids in wound healing.

Made with lightweight and breathable fabric, Motif Compression Garments hide discreetly under clothing for a seamless, comfortable fit.

### FEATURES & BENEFITS

- Delivers gentle compression to reduce swelling (edema).
- Stabilizes the abdomen with structured support panels.
- Relieves conditions like pelvic girdle pain.
- Supports lower back and hips for improved posture.
- Tightens and tones belly, hips, waist, pelvis, and lower back.
- Split crotch design for convenient trips to the restroom.
- Contains silicone leg grippers to prevent the garment from riding up.
- 76% nylon, 24% spandex.
