

Motif Postpartum Recovery Support Garment

C-Section & Natural Birth

Motif Postpartum Recovery Support Garments were designed by medical professionals for new moms to help recovery after a C-Section birth by providing structure to stabilize the stomach, back, and hips. The garment also features a side zipper designed for easy wear after a C-Section and aids in wound healing.

Made with lightweight and breathable fabric, Motif's Postpartum Recovery Garments hide discreetly under clothing for a seamless, comfortable fit.

FEATURES & BENEFITS

- FDA-listed medical device.
- Speeds up postpartum recovery time.
- Designed for C-Section — rather than pulling fabric over the C-Section incision, the garment features a side zipper for convenient and easy wear.
- Delivers gentle compression to reduce swelling (edema).
- Stabilizes the abdomen with structured support panels.
- Relieves conditions like pelvic girdle pain.
- Supports lower back and hips for improved posture.
- Tightens and tones belly, hips, waist, pelvis, and lower back.
- Split crotch design for convenient trips to the restroom.
- Contains silicone leg grippers to prevent the garment from riding up.
- Made of 76% nylon, 24% spandex.
