Pump hands-free

Simply hands-free

Enjoy hands-free pumping with greater freedom to move naturally throughout the day. The practical lanyard lets moms wear the pump comfortably and stay hands-free wherever she is, making multitasking easier for busy moms. With only a few parts, the pump is simple to handle, assemble, and clean, helping to save valuable time every day - she'll love it!

Reliable design – efficient pumping

The clear LCD display allows easy and intuitive control, so moms can quickly find the settings that work best for them. With up to 120 minutes of pumping time on a full charge, moms can enjoy reliable pumping.

Two modes & 9 vacuum levels

Designed to support the personal pumping needs of a mom, the pump offers two modes and 9 adjustable vacuum levels in each mode for a more customized experience. The wide vacuum range helps to find the setting that feels most comfortable and effective for the mother's body. This allows gentle, flexible, and efficient pumping whenever she needs it.

Affordable quality

The Ardo Iris combines strong performance with soft silicone for comfortable, efficient pumping every day. It is designed to support moms at home and on the go.

High-quality workmanship, reliable functionality, and practical accessories all come together in a balanced and affordable package made for everyday motherhood.
